Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and ...

Operating within a temperature range of $-20\text{ }^{\circ}\text{C}$ to $40\text{ }^{\circ}\text{C}$, it ensures reliable functionality in various environments. Additionally, autonomous functions are available upon request, promising a ...

-In off-grid locations such as mountains, islands, and mining sites, PCS manages solar, wind, and battery storage to provide a stable, round-the-clock power supply.

This Energy Storage Hybrid PCS Cabinet: A versatile solution for industrial and commercial energy storage. Seamlessly integrates grid-connected and off-grid modes, with bidirectional ACDC and ...

It has functions such as grid voltage regulation, three-phase imbalance control, and harmonic control, which can improve power quality, load tracking, backup power supply, peak shaving, and valley filling.

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

It is specifically designed to store and manage energy in an outdoor environment. This system is equipped with various components, including a high-voltage energy storage inverter, a high-voltage ...

The HighJoule 100KWh Outdoor Cabinet Series supports RS485, CAN, Ethernet, and Modbus protocols for real-time data transmission. The integrated EMS platform allows for remote monitoring and ...
