Base station energy storage solutions paired with site battery cabinets offer a robust, scalable, and sustainable approach to powering modern communication infrastructure.

Discover our scalable 50kW/120kWh sodium-ion energy storage cabinet, designed for efficiency and air-cooled performance. Power your future sustainably!

As businesses seek faster ROI, enhanced safety, and operational simplicity, the All-in-One C& I Energy Storage Cabinet meets these needs with a true plug-and-play solution.

Ideal for deployment in industrial parks, supermarkets, hotels, office buildings, data centers, and solar charging stations, this high-efficiency energy storage solution enables users to reduce electricity ...

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO4 safety and BMS.

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

KonkaEnergy Cabinets & Racks Collection - Engineered for secure and efficient energy storage, our battery cabinets and racks provide robust solutions for commercial and industrial applications.

IBE-120C-CE iBASE Energy"s commercial and industrial energy storage system is based on LFP battery cells with nominal energy of 120kWh. The ESS cabinet"s high energy density and all-in-one modular ...
