200 kWh intelligent string outdoor battery cabinet with IP55 protection, designed for secure and efficient energy storage in harsh environments.

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions. Our mission: to green every watt of electricity generation and maximize every watt's value, ...

The cabinet incorporates multi-level protection mechanisms, including fault isolation and fire-resistant materials, to ensure operational safety. Its modular design allows flexible capacity expansion from ...

Standardized cabinets for zoned security and isolation of energy storage systems. Monitoring and early warning design, package level immersion re protection technology to ensure a safe and controllable ...

Our 200KWh outdoor cabinet energy storage system works with PowerNet outdoor control inverter cabinets for modular expansion. This means you can meet the needs of large-scale applications ...

Our 200KWh outdoor cabinet energy storage system features a battery pack system enclosure with triple fire protection. With independent relay protection and battery-level thermal monitoring, you can ...

The StackRack SRBOX-200 is an outdoor-rated, high-voltage modular battery system that consists of up to 14x 14.3 kWh batteries for up to 200kWh battery capacity.

The outdoor cabinet-type photovoltaic storage system, boasting a power rating of 100kW/200kWh, seamlessly amalgamates energy storage batteries, PCS, power distribution, ...
