The IP55 protection level adapts to the harsh outdoor environment, which is perfectly suited to the needs of industrial and commercial energy storage.

Prisma Storage is a flexible Power Conversion System (PCS) designed to manage and optimise your energy storage. Available as a ready-to-use cabinet or a kit for custom integration, it fits any ...

Functional Characteristics Introduces safe and efficient clean energy (solar, wind) with AI management to achieve energy saving, low carbon, and stable and safe operation of communication base stations.

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems.

? High-Capacity Outdoor Energy Storage for Scalable Applications Key Features: 1075kWh battery storage with 500 kW rated AC output, ideal for commercial and industrial loads. Combines LFP ...

Battery cabinets are shipped completely assembled with internal modules mounted - for maximum quality with the minimum transportation costs and installation time.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...
