What is a 5G outdoor integrated cabinet?

5G Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Lockable front door with rubber seal, with AC or DC Air conditioner mounted on the door. Support custom-made.

What is a macro base station?

One of the most compact outdoor macro base stations in the industry, it features a large, scalable capacity and multi-mode applications that meet the requirements of long-distance railways. The base station cabinet contains as many as six RF modules. These multicarrier modules support GSM-R 5.0 and the enterprise LTE (eLTE).

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions, impacts and other factors.

Does CableFree offer a 5GHz base station?

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE without requiring access to licensed spectrum. Band 46 covers 5150 - 5925MHz and uses TDD-LTE technology. Contact CableFree for details.

Designed for telecom operators and critical infrastructure deployments, these antennas are ideal for urban, suburban, and highway scenarios where consistent outdoor signal performance is ...

Lithium battery management technology combined with electronic technology to build a safe, intelligent and efficient solution.

5G is the fifth generation of wireless network technology, designed to run at much higher and faster frequencies than earlier iterations. It can provide significantly faster download and upload ...
