-----

Firstly, connect the individual components to the symbols provided. 1. Connect the battery to the charge controller - plus and minus. 2. Connect the solar panel to the charge controller - plus and minus. 3. ...

The solar charge controller with maximum input power of 30W for 6V systems and 60W for 12V systems. This PWM charge controller features multiple protection functions, including overload and short ...

Get the best deals for 6V Solar Charge Controller at eBay . We have a great online selection at the lowest prices with Fast & Free shipping on many items!

Experience the ultimate in solar charging technology with the S2-6V, a robust and energy-efficient charge controller designed for 6-volt systems.

[Intelligent Charge & Maintain] Built-in intelligent MPPT charge controller, generates at least 10%-20% more power than traditional controller. Smart 3-stages charging algorithm is improved to better ...

This solar power management module is designed for 6V~24V solar panel. It can charge the 3.7V rechargeable Li battery through solar panel or USB connection, and provides 5V/1A or 3.3V/1A ...

5A Solar Panel Regulator 6V 12V Auto 24Hours Load On IP67 Waterproof Solar Controller for Lead-Acid Battery Charge and Discharge

This solar panel battery regulator has three operating modes that can be selected: normally open mode, pure light control mode and light control plus timing mode.
