What is a GreenWorks 80v portable power inverter?

The Greenworks 80V Portable Power Inverter is your ultimate solution for reliable, on-the-go power. Delivering 300W continuous power output with a Greenworks 80V battery (sold separately), this inverter is perfect for charging and running small electronics like laptops, tablets, and more via its 120V AC outlet.

How much does an inverter cost?

At the average \$0.18 per watt and with the average installation costing \$2.93 per watt, inverters usually account for about 6% of total installation costs. This means that a typical 5.6-kilowatt installation costs \$16,408 in total and the inverter should account for about \$1,000 of that.

Is the GreenWorks pro 80v power inverter safe?

Absolutely. The Greenworks Pro 80V Power Inverter features built-in surge protection and a pure sine wave output, ensuring stable, clean energy for sensitive devices like medical equipment, gaming consoles, or smart TVs. How portable is this inverter for outdoor use?

How much does a GreenWorks inverter weigh?

Weighing just 3.3 lbs and with a compact, ergonomic design, this inverter is ideal for camping, road trips, or emergencies. Pair it with a Greenworks 80V battery (2.5Ah or 4Ah) for hours of cord-free power on the go. Can I use this inverter while charging the battery? No, this is a tool-only inverter and does NOT include a charging port.
