In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has ...

The United Arab Emirates (UAE) is cementing its position as a global leader in renewable energy with the launch of the world's first giga-scale, round-the-clock solar photovoltaic ...

A project combining solar generation and battery storage to provide 1GW of "round-the-clock" dispatchable power was unveiled at Abu Dhabi Sustainability Week (ADSW).

Valued at approximately AED232 billion (around US\$5.9 billion), this project will integrate 5.2 gigawatts of solar photovoltaic power with a 19-gigawatt-hour battery energy storage system.

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC) on Tuesday announced plans to build the world's first large-scale "round the clock" ...

Learn how Abu Dhabi's 24/7 Solar Project combines 5.2 GW PV with 19 GWh battery storage to deliver gigawatt-scale clean power, day and night.

The United Arab Emirates has begun work on developing the world's first and largest renewable energy project of its kind, combining solar
