The Chinese module maker achieved a turnover of \$15.75 billion and a net profit of \$768.2 million in fiscal 2023, with an annual module production capacity of 95 GW by the end of ...

In 2022, annual shipment of Trina photovoltaic modules was 43.09GW, and as of the first quarter of this year, the cumulative shipment of photovoltaic modules exceeded 140GW.

Trina Solar says its solar panel shipments reached 65.21 GW in 2023. The Chinese module maker achieved a turnover of \$15.75 billion and a net profit of \$768.2 million in fiscal 2023, ...

Its PV module shipments were 43.09GW, with revenue of 63.1 billion yuan, up 83.47% year on year, and gross margin of 11.87%, down 0.56% year on year. PV system products achieved ...

Trina Solar Co., Ltd. stands as one of the world's leading photovoltaic (PV) manufacturers, having shipped over 205GW of solar modules globally since its founding in 1997.

Compare Trina Solar panel specs, datasheets, and warranties to choose the best model for your home or business and make smart buying decisions.

Nowadays, power output of PV modules has been upgraded from 600W+ to 700W+ with the application of n-type high-efficiency cell technology (TOPCon, HJT, etc) and ...

It is expected to be completed and put into operation by the end of 2023, with an average annual power generation capacity of about 1.077 billion kWh. The power station is located in Wanning City, Hainan ...
