Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What is the standard ventilation temperature for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +34°C. All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements.

What are the sound pressure levels available for genset containers?

Lower sound pressure levels are available on request. The standard ventilation is designed for ambient temperatures from -25°C to +34°C. All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C.

Summary: Discover how Battery Energy Storage Systems (BESS) are transforming Antananarivo's power infrastructure. This guide explores technical innovations, real-world applications, and why ...

Summary: Discover how mobile Battery Energy Storage Systems (BESS) are revolutionizing power reliability in Antananarivo. Learn about applications, case studies, and market trends shaping ...

Containerized Battery Energy Storage Systems (BESS) act like a "power bank" for cities - storing excess renewable energy during sunny hours and releasing it when needed most.

Antananarivo-based producers now offer modular Battery Energy Storage Systems (BESS) specifically designed for Madagascar's climate. Unlike imported solutions, these systems:

A luxury resort near Antananarivo reduced energy costs by 22% after installing two 500kVA container

Antananarivo containerized generator set BESS

generators with solar integration. The system automatically switches between power sources - like ...

Our dedicated and highly experienced team specializes in delivering comprehensive Containerized Battery Energy Storage Systems (BESS) tailored precisely to your commercial or industrial needs.

Antananarivo, Madagascar's bustling capital, faces three critical energy challenges: Containerized Battery Energy Storage Systems (BESS) act like a "power bank" for cities - storing excess ...

The shift from DG sets to BESS is not just a technological upgrade--it is a strategic move towards a greener and more resilient energy future. As battery cost continue to fall and ...
