Do I need a certified power plug for Argentina?

Under these guidelines, any plug can be used with a certified adapter disclaimer that meets the standards of IRAM 2073/2071. The disclaimer must include a tag that indicates the product does not come with a standard power plug for Argentina, and that a certified grounded adapter is necessary to ensure safety.

Are cord plugs allowed in Argentina?

These Resolutions include updates to labeling for cord plugs. Any plug is allowed with a certified adapter disclaimer with IRAM 2073/2071 with the mandatory tag stating that the product is not supplied with a standard power plug for Argentina, and that the use of a certified adapter with grounding is required so that safety remains uncompromised.

Which power outlet do they use in Argentina?

Which power outlets do they use in Argentina? Argentina runs on two different power outlet types: I and C. Type I is commonly found throughout places like Australia, New Zealand, and China, and features three prongs in a triangle shape. Sometimes, cables only have the upper two prongs, although they still function the same.
