Outdoor Photovoltaic Energy Cabinet Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates.

This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, assembly, wiring, and system testing. [pdf]

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

This IP55/IP65 outdoor PV inverter cabinet protects off-grid solar and telecom equipment. It includes integrated power distribution and corrosion resistance

Durable Corrosion-Resistant Material Technology With a reinforced metal body and corrugated structural design, the MEOX container withstands extreme outdoor conditions, ensuring ...

Operation Altitude 50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C& I energy storage and microgrid applications.

Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

It is prefabricated in the factory, and the cabinet can be hoisted as a whole. The outer layer of the cabinet made of FRP material has strong anti-corrosion performance and can be used in coastal ...
