-----

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer products, ...

BAK New Power is a subsidiary of BAK group. It is know for its strength in research and developing customized lithium battery packs and BMS develiping capability. The batteries are used ...

BAK's energy storage batteries feature modular design and come equipped with an intelligent battery management system (BMS). They offer advantages such as compact size, ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

We work for you since 2002. As a export customized battery pack manufacturer, BAKTH has always been "Quality is above". It has allowed us to grow steadily and sustainably for over 23 years.

Bak plans to launch a 390 Wh/kg solid-state battery by late 2025, targeting safety equipment, EV battery swapping, and eVTOLs. Current prototypes already pass nail penetration ...

The BAK 688Ah large single cell supports a system energy capacity of up to 6.9 MWh. Compared to standard 20-foot containers, it reduces component counts by 20% and system footprint ...

BAK New Power was established in 2019. Two manufacturing bases in Zhengzhou and Huangshan. BNP focuses on electric two-wheelers, three-wheelers, low-speed four-wheelers and energy storage ...
