What is the Bahamas Grid Company?

The Bahamas Grid Company manages the poles, wires and substations that carry power across New Providence. Together with Bahamas Power and Light and the island's power generators, we ensure access to reliable, resilient, affordable and sustainable power to all Bahamian consumers and businesses.

When did the Bahamas become a telecom company?

In 1966, the Government created the Bahamas Telecommunications Corporation (Batelco). In 1971, direct-distance dialing was introduced, and in 1972, a \$7 million submarine cable was installed from West Palm Beach to Eight Mile Rock. In 1986, the Corporation joined CANTO and acquired the assets of the Grand Bahama Telephone Company.

When was the first telephone system installed in the Bahamas?

In 1892, a telegraph cable was laid between Jupiter, Florida, and the western district of New Providence. In 1906, the first telephone system was introduced in Nassau. In 1933, the first telephone service to the United States from The Bahamas was established. After World War II, frequency shifters were installed in The Bahamas.
