Each battery rack has its dedicated battery management circuitry and can be safely used individually or in parallel (to increase capacity) as key storage element in a modern Energy Storage System.

The EJ 19-Inch 4U 48V 100Ah LiFePO4 Rack Mount Battery is a compact, high-performance lithium power solution designed for energy storage and backup systems. With a 51.2V nominal voltage and ...

Each battery rack has its dedicated battery management circuitry and can be safely used individually or in parallel (to increase capacity) as key storage element in a modern Energy Storage System. When ...

Each battery rack has its dedicated battery management circuitry and can be ...

Frame design, 19" standard cabinet installation, 48V base station, and 240V HVDC system. The 48V rack-mounted Communication Lithium-ion battery is designed specifically for the telecommunications ...

Power your systems with the 3U 19-inch rack-mounted 48V 100Ah 5kWh LiFePO4 battery. Featuring RS485, RS232, and CAN communication, this battery is perfect for data centers and telecom base ...

Engineered for reliability, safety, and longevity, this battery system is perfect for telecommunications, data centers, solar and wind power storage, and industrial applications.

Ensure continuous communication with our 19" lithium battery cabinets, built for reliable power at base stations.
