How big is Brazil's electricity sector?

Investment in the Brazilian electricity sector is expected to reach over \$100 billion by 2029, including utility-scale generation, distributed generation, transmission, and distribution projects. Brazil's electricity matrix is one of the cleanest in the world and Brazil is committed to continuing its support for renewable energy projects.

How are grid connection queues transforming Brazil's energy industry?

Grid connection queues in Brazil are offering new opportunities for energy storage and hybrid systems and opening new energy business models. Renewable energy companies are adding solar and batteries to their utility-scale wind power sites to use existing power transmission capacity.

How big is solar energy in Brazil?

Utility scale solar energy in Brazil reached 16.4 GW, while distributed generation from solar accounted for 34 GW in 2024. Investments in utility-scale solar energy projects that have already been approved amount to more than \$20 billion. An additional \$1 billion has been invested in solar distributed generation since 2012.

What is the future of electricity generation in Brazil?

Wind generation is expected to reach 13% of the electricity matrix by the end of 2029, while solar generation is expected to double. Hydropower has been the leading Brazilian energy source for electricity generation for several decades. This is due to its economic competitiveness and its potential at the national level.

Law No. 6891/2021 has stipulated that no less than 50% of energy consumption of the public buildings and services in the FD shall be generated by renewable energy by the end of 2026, and no less than ...

Brasilia is the capital of Brazil. Located in the Federal District within Goias state on the central plateau of Brazil, it lies between the headwaters of the Tocantins, Parana, and Sao Francisco ...

Entering Brazil's growing solar market? This guide analyzes the strategic choice between local sourcing and importing components to optimize costs and incentives.

Brasilia is the capital of Brazil, located in the central part of the country. It is the seat of the main federal government: the president (residing in the Palacio do Planalto), the Brazilian supreme court, and the ...
