Ecobatt Energy Cambodia has been collecting battery wastes from 200 e-waste bins in Phnom Penh and other provinces. The public can dispose of batteries that are low-quality or running ...

As Cambodia's only licensed e-waste recycler, Ecobatt Energy Cambodia is building a system to manage the growing wave of electronic and battery waste driven by digitalization. Their work keeps ...

This will assist in defining the scope of battery volumes and market conditions, as well as providing an overview of the current take-back and recycling capacities for household and lithium-ion batteries in ...

The battery recycling initiative in Cambodia is a collaborative effort between the Ministry of Environment and the Ecobatt-Energy Cambodia company. The initiative began in 2021 and has ...

In a joint effort between the Ministry of Environment and Ecobatt Energy Investment International (Ecobatt), over 30 tonnes of electronic waste, including used cell batteries and electrical ...

Cambodia is grappling with a mounting e-waste crisis, as experts warn that just 0.5 percent of phone batteries are recycled--leaving thousands of tonnes to pollute landfills and burn ...

The Ministry of Environment has acknowledged this threat and is working with the private sector to collect battery waste that is normally disposed of with regular trash untreated.

For your convenience, Ecobatt Energy has provided over 300 bins around Phnom Penh to service their collection partners, with state of the art bins to encourage people to avoid throwing them away with ...
