How can members reduce locker room theft?

For members to reduce locker room theft, there are certain precautions that should be taken. Leave valuables at home. If possible, don't store valuables in your locker. Thieves who continuously come up empty handed when breaking into lockers are likely to turn their attention somewhere else.

What happens if a locker door is broken?

A broken locker door can lead to a variety of hazards. Secure or remove it as soon as possible. Conducting frequent inspections can also reduce potential theft from unmonitored locker room areas. The frequency of your inspections depends on how often the restrooms and locker rooms are used and the number of clients in your facility each day.

What should you do if a locker door is broken?

Lockers and sinks should be periodically checked to ensure they are securely fastened to the wall and free of defects. A broken locker door can lead to a variety of hazards. Secure or remove it as soon as possible. Conducting frequent inspections can also reduce potential theft from unmonitored locker room areas.

How do I choose a safe locker room?

Choose a locker in a visible area. Although the entire locker room should feel like a safe place, based on its design, there may be some areas that are more prone to criminal activity. The back corners, for example, could provide ample coverage for a thief to feel concealed enough to attempt breaking into a locker.
