Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% ...

A full transition to solar power. So from now on, the seat of the Catholic Church runs almost entirely on clean energy; it is a powerful moment, not in policy, but in principle. This echoes ...

Vatican City is on track to become the 8th country in the world to generate 100% of its electricity from renewable energy, following Pope Francis' announcement about plans to build a large solar plant.

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

This ambitious project, which has received approval from the Italian government, aims to generate sufficient electricity to fulfill the energy needs of Vatican City, aligning with Pope Francis' ...

Pope Francis announces his plans to transition the Vatican to 100% solar power to support climate change efforts.

The Vatican City has achieved complete energy independence through renewable sources, making it one of only eight countries running on renewable energy worldwide.

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican...
