We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

This system packages a 250kW Power Conversion System (PCS) with 750kWh of lithium-ion battery storage into a robust, portable container. The PCS controls the flow of electricity in and out of the ...

The 20ft container features a 614 kWh 250kW power storage system, which can be built almost anywhere due to the prefabricated design, therefore, much time and money involved in the process ...

Contact us today to learn more about our containerized energy storage systems and receive a comprehensive proposal including detailed energy storage container price information for your project.

Product description: The container integrated system solution with one stop service. The energy storage system consists of a battery system, PCS cabinet, transformer cabinet, distribution cabinet, ...

This modular 10ft all-in-one commercial ESS is designed to make energy storage deployment simple, standardized, and scalable for businesses and industrial facilities.

Ideal for use in renewable power plants. Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid solution ...
