We will be happy to customize outdoor cabinets to your needs. These modifications will ensure the most efficient utilization of the available space, which will help reduce the energy consumption of the data ...

Perfect for your outdoor data centre: We have translated our expertise as the market leader for high-tech modular constructions into an all-in-one solution for IT and telecommunications.

Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks built outside traditional data center constraints.

The cabinet modular data center provides an integrated solution for power distribution, cooling management, fire safety, and structured cabling. It is designed to offer safety, reliability, and ...

It supports up to 40+ high-density racks per pod with hybrid liquid-air cooling. Preconfigured and factory-tested, it ensures predictable performance, reduced capital expenditure, and rapid time-to-market ...

The modular data center combines your servers--regardless of make or model--with Eaton electrical equipment in a single building, reducing complexity, speeding deployment, and delivering optimum ...

BR represents the productization of small and micro-sized data centers and significantly accelerates the construction speed of micro data centers, achieves plug-and-play, and features such as high energy ...

Explore MDC"s range of prefabricated data center solutions, including indoor and outdoor modular designs, tailored for industries like enterprise IT, edge colocation, and smart manufacturing.
