IN DESIGN AND REAL ESTATE, some things are just meant to be. Andy Gilon and Astrid Alves were so enamored with Coconut Grove's Rock House, the name renowned architect Max Strang gave to ...

At Strang's core as a designer lay a deep commitment to the transformative possibilities of design, to a sustainable, holistic environmentally sensitive architecture, and to a practice that provides great ...

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

AZE's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular ...

As Oslo proves, off-grid solar storage isn't about surviving the apocalypse - it's about rewriting the energy rulebook. And if they can do it with six months of winter and 3AM sunlight in ...

Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. [pdf]

We are committed to excellence in solar container and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar container ...

It integrates the photovoltaic, wind energy, rectifier modules, and lithium batteries for a stable power supply, backup power, and optical network access in one enclosure. This versatile energy cabinet ...
