Egypt is on the verge of a renewable energy revolution with a landmark solar project. The country will host Africa's largest integrated solar and battery storage project, following a significant ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar plant and 2 ...

With a total project cost of over USD 700 million, the project comprises a 1,000 MW solar PV plant combined with a 600 MWh battery energy storage system (BESS) in the Aswan Governorate, Egypt.

Scatec ASA has signed a 25-year Power Purchase Agreement (PPA) with the Egyptian Electricity Transmission Company (EETC). The project aims to build a 1 GW solar and 100 MW/200 ...

AMEA Power, a renewable energy developer headquartered in Dubai in the United Arab Emirates (UAE), in August announced a 300-MWh battery energy storage system (BESS) had ...

Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and the start of construction on a giant solar-and-storage project ...

Independent power producers (IPP) Scatec and AMEA Power will build solar and storage projects totalling 1.1GWh of storage capacity for power purchase agreements (PPAs) in Egypt.

The agreement entails the collaborative development of a total 1.2-gigawatt (GW) solar power project coupled with a 720-megawatt hour (MWh) battery energy storage system. According to ...
