Arimon designs and manufactures custom uninterruptible power supply (UPS) backup battery cabinets, battery racks and accessories for the military and commercial OEMs serving applications including:

Highly efficient, easy-to-deploy 25kW, 208V 3-phase uninterruptible power supply (UPS) that brings best-in-class power protection to edge, small and medium data centers, as well as to critical ...

o The BESS includes a control cabinet with auxiliary transformer, a power conversion system (PCS) and up to three battery cabinets (with six or eight battery modules in each cabinet).

Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of your critical facility.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

When you want power protection for a data center, production line, or any other type of critical process, ABB's UPS Energy Storage Solutions provides the peace of mind and the performance you need.

Alpine Power Systems engineers and builds customized battery cabinets and enclosures for critical power applications, for utility, telecom, CATV, data center and other applications.

Providing safe, reliable, high-power, the BlueRack(TM) 250 is designed to mate with all data center type 3-phase UPS manufacturers equipment, as well as numerous other critical power systems.
