In a significant move that underscores Europe's strategic focus on battery production, a EUR2 billion lithium battery factory project has been initiated in Sines, Portugal.

Hyperion's first battery storage projects in Portugal, located in Estremoz and Évora. Co-located with solar PV plants, enabling energy to be stored during peak production hours.

StorSystems is driving the Portuguese energy transition by developing, building, and operating advanced battery storage systems. Battery storage allows power produced now to be stored for use ...

Battery manufacturer CALB is set to invest EUR2 billion in a new lithium battery factory in Sines, Portugal. The facility will be located in the Sines Industrial Zone, covering an area of 45 ...

Portugal and Spain are racing to build energy storage sites - and they're doing it with the urgency of someone who just discovered their phone battery is at 1%.

Commissioned in June 2025, it trades energy on the spot and ancillary system services. Industrial behind-the-meter storage is also emerging, exemplified by Bondalti's 12 MWh system in Estarreja ...

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis. [pdf]

As global demand for renewable energy integration grows, Portugal's Electrochemical Energy Storage Industrial Park emerges as a pivotal hub for advanced battery technologies and grid-scale solutions.
