Who is Enphase Energy?

About Enphase Energy, Inc. Enphase Energy, a global energy technology company based in Fremont, CA, is the world's leading supplier of microinverter-based solar and battery systems that enable people to harness the sun to make, use, save, and sell their own power - and control it all with a smart mobile app.

What makes Enphase Energy a sustainable company?

As a clean energy company, Enphase is committed to sustainable operations: Enphase Energy serves diverse customer segments across the solar energy ecosystem, from individual homeowners seeking energy independence to large commercial enterprises implementing comprehensive sustainability strategies.

What is Enphase solar battery & how does it work?

The battery also uses the company's microinverters inside it. Enphase technology is unique in that it brings solar, storage and software together in a single package. Enphase microinverters act as a bridge between the solar panels and your home's energy system.

What is Enphase enlighten?

Enphase technology is unique in that it brings solar, storage and software together in a single package. Enphase microinverters act as a bridge between the solar panels and your home's energy system. This allows homeowners to manage their home's energy directly from a smartphone via the Enphase Enlighten app.
