EVLO Energy Storage, a subsidiary of Canadian utility Hydro-Quebec, has recently introduced EVLOFLEX, a utility-scale Battery Energy Storage System (BESS) utilizing its own lithium ...

EVLO, a wholly owned subsidiary of utility Hydro-Quebec, has achieved UL 9540 certification of an augmented version of its EVLOFLEX system, which boasts enhanced fire and ...

Optimize your power system with EVLOFLEX, our latest energy storage system. It helps utility companies firm renewable energy, stabilize grids, control flow, and more.

The battery's modular design -- which is smaller than the EVLO 1000 -- punches well above its weight in performance. As a result, the EVLOFLEX is a cost-effective solution in both the ...

The EVLOFLEX also incorporates state-of-the-art control and communication architecture backed by EVLOGIX proprietary software, providing maximum system reliability, performance, and long-lasting ...

The EVLOFLEX BESS system can be utilized anywhere that energy storage is required. The lithium-iron-phosphate battery chemistry EVLOFLEX is able to run approximately 7,300 cycles ...

EVLO Energy Storage, a unit of Canadian utility Hydro-Quebec, has unveiled EVLOFLEX, a utility-scale BESS based on its proprietary lithium iron phosphate (LFP) chemistry.

A battery storage unit developed in Canada is passing crucial safety tests, according to Renewable Energy World. The innovation, dubbed EVLOFLEX, was developed by Quebec's EVLO.
