A selection of videos featuring Australia's leading authority on home solar power, Finn Peacock. Make the right solar choice with advice from Finn.

Component #1: Solar PanelsSolar Panel BrandsComponent #2: Solar InverterSolar Inverter BrandsComponent #3: Racking/MountingComponent #4: Consumption MonitorConsumption monitors are small devices that sit in your switchboard. They cost around \$500, and measure how much electricity is coming from or going to the grid. To be clear - you can install a solar system without a consumption monitor. But I strongly recommend getting one. This is because inverters, out of the box, will only tell you how much sol...See more on solarquotes Finn PeacockFinn Peacock: Engineer, Author. Solar + Battery ExpertThe Good Solar Guide: 7 steps to tiny bills for Australian homeowners. Follow the seven simple (ish) steps in my book and I guarantee you'll be rewarded with a ...

Finn Peacock started SolarQuotes in 2009 to provide Australians with an independent source of information when buying solar electricity systems and installing solar panels.

The Good Solar Guide demystifies the solar buying process in Australia showing you how many panels you need, which panel brands to buy, which to avoid, and how to find a great installer.

Thinking about solar, but don't know where to start? Introducing "Solar 101: A Beginner's Guide", written by Chartered Electrical Engineer Finn Peacock

Our Solar 101 beginners guide is the ideal starting point for anyone considering buying a solar power system who needs advice and information

Solar guru Finn Peacock joined Nightlife and revealed how more than 3.6 million Australian households have taken control of their power bills by putting solar panels on their rooftops. ...

My popular Solar 101 guides help Australians understand how solar power works, how to buy a system and what to do once it is installed.
