-----

Our portfolio includes state-of-the-art battery energy storage systems and flywheel energy storage systems, engineered to optimize ...

Our flywheel storage can be installed inside an electric bus or electric truck to improve energy consumption efficiency. It can also be used without any ...

Whether you're interested in implementing Revterra's kinetic battery solution, partnering with us or just want a little more information, we want to hear from you. Fill out the form below and we'll reach out ...

It stores renewable energy from the grid or on-site renewable energy generation and releases it when you need it most, delivering reliable power at a consistent ...

Durable Steel Inertia Flywheel for Stirling Engines, Balance Bikes & Gyroscopes - 100mm/120mm Diameter, 5/6/8mm Bore, Full-Baked Paint Finish, Energy Storage Wheel (Inner Hole 6mm)

Revterra's system stores energy through a spinning rotor, converting electric energy into kinetic energy and back when needed. Using magnetic bearings and steel alloys, we enhance efficiency and reduce ...

Our flywheel energy storage device is built to meet the needs of utility grid operators and C& I buildings. Torus Spin, our flywheel battery, stores energy kinetically. In doing so, it avoids many of the ...

Revterra exists to support your energy challenges. Our modular, grid-stabilizing kinetic battery can be configured for both high-power and long-duration applications.
