Enter the National Energy Havana Energy Storage initiative--a hybrid system combining lithium-ion batteries and recycled EV components. Think of it as a "Cuban sandwich" of energy tech: ...

Cuba on Friday unveiled a new solar energy park in the capital Havana, part of an ambitious project to alleviate the communist island's increasingly desperate struggle with power ...

First, I brought in a plant [portable generator] from abroad that turned out to be a headache because of the difficulties of getting fuel and maintaining it--in one year I changed ...

Despite the scale of the program, only four parks are currently planned to include energy storage systems: two in Havana, one in Holguen, and one in Granma. Each of those battery banks ...

Cuba is investing in solar energy and battery storage to address its severe energy crisis, reduce dependency on fossil fuels, and improve the reliability and stability of its power supply.

You'd think an island blessed with year-round sunshine would've cracked the code on renewable energy storage. Yet Cuba's power outages increased by 23% in 2023 despite adding 450MW solar capacity.

As Cuba accelerates its renewable energy transition, Havana has become a focal point for innovative energy storage solutions. This article explores existing power storage facilities, emerging ...

With Cuba aiming to generate 37% of its electricity from renewables by 2030, Havana has become a hotspot for solar innovation. The city's unique challenges - from aging power grids to frequent ...
