-----

The strategic partnership with Hongyang Group further demonstrates the growing market acceptance and large-scale application potential of HJT technology in renewable energy projects. ...

As part of this initiative, a 150 MW AC fishery-solar hybrid PV power system is under construction, with grid connection expected by June 2026. Once fully operational and connected to ...

The collaboration between Huasun and Hongyang Group integrates their complementary strengths across the renewable energy value chain to jointly develop the Ili and Altay solar-storage ...

Solar Power Supply System is a kind of environment-friendly refueling device, which is small and occupies less space. The installation is simple and it can be moved as a whole. It can be widely used ...

Under the agreement, Huasun will provide no less than 3 GW of high-efficiency HJT modules for Hongyang Group's solar-storage-hydrogen-ammonia-methanol projects in Ili and Altay, ...

Under the terms of the deal, Huasun will provide at least 3 GW of HJT solar panels for Hongyang Group's solar-plus-storage hydrogen-ammonia projects in Yili and Altay, Xinjiang, with ...

China-headquartered Huasun, a global manufacturer of HJT solar technology, has signed an agreement with Hongyang Group to provide over 3 GW of HJT photovoltaic modules for energy ...

Specialising in solar energy systems and wind power technologies, Hongyang is renowned for its innovative approach and commitment to environmental sustainability. The company's core products ...
