With the right setup and in the correct jurisdiction, your home's solar energy system can generate more electricity than you use, allowing you to sell this excess energy back to the grid.

Consider installing a solar panel system, understanding net metering policies, and monitoring your energy production to take full advantage of selling solar power back to the grid.

How to Sell Electricity from Solar Panels Factors to Consider Before Starting Solar Net Metering Anti-Solar Utility Companies Good News For Solar Energy From a consumer's point of view, it seems like a no-brainer. You use what energy you need, and you have a market ready to buy up your surplus energy, which lowers your overall electric bill. However, there are still some factors to consider before you start solar net metering. See more on modernize Author: Emily Bloch.
