LONGi Solar, a Tier 1 solar panel brand, offers state-of-the-art solar technology features in their solar modules, including PERC technology. PERC cells allow solar panels to have a high cell efficiency.

LONGi delivers great value, offering solar panels at prices below the industry standard. With an average cost of \$2.40 to \$2.67 per watt (compared to the industry average of \$2.82), LONGi ...

Longi Solar Panels, LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering ...

LONGi produces a wide variety of quality, cost-effective solar panels for residential, commercial and utility-scale solar installations. The current models are the Hi-MO 4 and Hi-MO 5 ...

As one of the most sought-after solar panels in 2025, this comprehensive guide examines everything you need to know about the LONGi 540W, from technical specifications to real ...

LONGi Solar Panels represent a significant advancement in solar technology, combining high efficiency, durability, and a commitment to sustainability. With a wide range of models tailored to ...

HPBC (Hybrid Passivated Back Contact) is LONGi self-developed and named hybrid passivated back contact cell technology. It is a new generation of high-efficiency cell technology featuring no grid lines ...

LONGi leads the solar energy revolution with PV technology, delivering high-efficiency modules, solutions, and full-cycle quality assurance.
