Almost all teas last for about one year. Green/White teas deteriorate more quickly than fermented teas because they oxidize faster when exposed to the air. Always ask how long a tea has been sitting on ...

Learn how to store tea properly to keep it fresh longer. Complete guide to the best tea storage containers, conditions, and preservation techniques for loose leaf and bagged tea.

For home storage, first, seal the white tea in a tin foil bag and then place it in a high-density, strong, odorless, sealed plastic bag before refrigerating. If you plan to consume the tea ...

Sealed storage keeps tea drinkable for years, but most teas taste their best within 6-24 months, depending on type and handling. Tea doesn't "expire" the way fresh food does. In a sealed container, ...

When storing white tea, use a light-proof container so that the tea leaves are not directly exposed to sunlight. A well-sealed paper box: it is a typical and useful container for keeping white tea. However, ...

Once sealed, the Mylar bag protects the tea from moisture and light. The oxygen absorber removes oxygen from the packaging so it doesn't degrade from oxidation. Insects and their ...

Store tea in airtight, opaque containers in cool, dry, dark places away from strong odors. Most teas stay fresh 6 months to 2 years when stored properly. Don't refrigerate opened tea. Date ...

How long can white tea stay fresh if stored properly? When stored properly in airtight, opaque containers away from light and odors, young white tea meant for fresh drinking typically maintains its best ...
