What should I know before signing a solar energy contract?

Pay special attention to any language that connects you with the installation company, and outlines what you can expect the company to do for you. This guide is designed to provide a clear walkthrough of what you should know before signing a rooftop solar energy contract. What Is a Solar Power Contract?

What happens if I don't sign a solar panel contract?

Waivers: You give up your right to claim something with a waiver. Check your contract to ensure there aren't any waivers you don't agree with. If there are, you should try to amend the contract before you sign, or refuse to sign the contract. Termination: This section outlines all the reasons you can legally terminate your solar panel contract.

How long does it take to install solar panels on a roof?

The good news is that installing the panels on your roof only takes a day or two. It's just every other part of the process--designing the system, securing permits, connecting to the grid, and final inspections--will take some time. "Typically we say it's a 60-to-90-day timeframe," said Bryce Bruncati, of Raleigh, N.C.-based 8MSolar.
