Why is solar energy important in Brunei?

By harnessing solar energy, we are reducing carbon emissions and paving the way for a cleaner, more sustainable future for Brunei. This project serves as a model for other institutions and communities to follow.

Can Brunei achieve 200 MWp of solar energy by 2025?

The Sultanate also targets achieving at least 200 MWp of solar energy capacity by 2025. This project also supports the Brunei Climate Change Secretariat's strategies to increase renewable energy adoption and reduce carbon emissions.

Who owns a 30 MW solar park in Brunei?

A 30 MW solar park is under development in Brunei. Seri Suria Power (B) Sdn. Bhd., a newly formed joint venture, will build and operate the project. The company is owned by Atlantic Blue Sdn.

How much solar power does Brunei have?

According to the International Renewable Energy Agency (IRENA), Brunei's cumulative installed solar capacity stood at 5 MW at the end of 2024, unchanged since 2021. Brunei aims to reach 30% renewable energy in its electricity mix by 2035. This content is protected by copyright and may not be reused.
