Invinity Energy Systems plc ("Invinity"), a global manufacturer of utility-grade long-duration energy storage, today announces two new sales agreements in Hungary totalling 20 MWh, alongside ...

Read about the key role played by the Hungarian Energy and Public Utility Regulatory Authority (MEKH) in facilitating the battery energy storage in Hungary through developing detailed rules ...

Invinity Energy Systems announced the sale of 4 MWh of its VS3 vanadium flow batteries to Central European Vanadium Storage Kft, a subsidiary of Ideona Group, for two solar plus ...

Vanadis Energy delivers advanced vanadium solid-state batteries offering superior safety, long life, and scalable performance for next-generation energy storage.

Our range of products is designed to meet the diverse needs of base station energy storage. From high-capacity lithium-ion batteries to advanced energy management systems, each solution is crafted to ...

The energy storage system will be installed alongside a large-scale solar PV array in western Hungary as part of a solar-plus-storage project.

At Balatonberny, SMEGSolar is installing a 3 MW / 10.8 MWh vanadium redox flow battery system to complement an existing small-scale solar power plant.

In April this year, Invinity Energy Systems secured a 1.5MWh order for its vanadium redox flow battery (VRFB) from STS Group, for an installation at solar-plus-storage project in central Hungary.
