Why are EV traction batteries made in Hungary?

Over the last years, many of the leader EV traction battery manufacturers and their suppliers chose Hungary as the location of their newly established manufacturing plants. This is in line with the goal of the Hungarian government to become one of the main battery producer countries not only in Europe, but also at global level.

What are the top 10 battery manufacturers in Hungary in 2025?

This article introduces the top 10 battery manufacturers in Hungary in 2025 such as; CATL, Sunwoda, BYD, EVE Energy, CALB, SK On, Samsung, SDI, GS Yuasa, Inzi Controls, Huayou Cobalt. Last Updated on June 12, 2025

Who makes EV batteries in Hungary?

The only exception is BYD, which operates (among others) a bus assembly plant in Hungary and uses its own batteries. In below, we provide a slight overview about the EV battery producer companies which already operate manufacturing plants in Hungary or announced to do so in the near future.

Should Hungary invest in EV battery plants?

Within the European Union, Hungary puts a particularly high stake on EV battery plants, in the hope that it will find itself among the leading countries of an emerging industry within a few years. Commitment to green mobility is not the only motivation for attracting large battery manufacturers to the small Central European country.

"Five of the world's largest 10 battery manufacturers have chosen Hungary as their European production base; Samsung SDI, SK On, CATL, Eve Power, and Sunwoda are investing ...

Studies carried out by MOL show that Hungary may have lithium-rich geothermal deposits, thus, in the future, it may be able to meet at least domestic demand and play a role in the production of quality ...

At the beginning of 2025, batteries will be produced in SK On and Samsung SDI factories in Hungary, but the total capacity remains unknown, as the Iváncsa plant is still ramping up.

The biggest driver of change is Chinese battery giant CATL. The company is investing \$8 billion in what will be Europe's largest battery plant, supplying automakers like Mercedes-Benz.

HUBA - the one-stop-shop to the Hungarian battery value chain! Péter Kaderják, PhD.

This article highlights the top 10 battery manufacturers in Hungary in 2025, providing an overview of their backgrounds, products, and latest developments in Hungary, offering insights into ...

Using our technical process as a base, we are dedicated to developing more efficient, high capacity energy solutions for leading automakers. A battery pack that powers electrified vehicles consists of ...

Why is Hungary a good place to buy a battery? Hungary is ideally located on the European battery map, thanks to its central geographical location, investments in cell and battery production facilities, the ...
