In terms of main products, ZTT's power supply product line covers a wide range from basic power supply units to integrated energy cabinets.

Solar modules provide reliable, uninterrupted power to telecom cabinets, even during grid failures or in remote locations. Using solar power reduces energy costs and cuts diesel fuel use, ...

An indoor photovoltaic energy cabinet is a compact, integrated energy storage system designed to be deployed inside telecom facilities. It combines lithium battery storage, PV input, and intelligent ...

They feature power supply, distribution, and protection equipment as well as radio systems and passive or active cooling. Contact us today to learn about all the options and to find a solution that is right for ...

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.

They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

Designed for remote locations, it integrates solar controllers, inverters, and lithium battery packs to ensure stable and continuous power for telecom equipment, surveillance systems, and off-grid ...

Solarcraft specializes in UPS for telecommunications, telecom battery backup systems and telecom equipment shelters. Request your quote today!
