What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is a Purcell system outside plant enclosure?

Purcell Systems outside plant enclosures accommodate WiMAX wireless radios in durable equipment enclosures with options for surge protection, battery backup, power management, and complete climate control, for equipment deployments in indoor and outdoor environments.

How do I choose a NEMA rated outdoor enclosure?

Finding outdoor enclosures that meet all of your application requirements is made simpler through NEMA ratings. Cabinets with a 3, 3R, 3S, 3X, 3RX, 3SX, 4, 4X NEMA standard are all properly made to withstand the outdoor elements to varying degrees.

What are the features of our enclosures?

Versatile installation features: Our enclosures have two universal wall and pole mounting brackets and an adjustable and removable back plate. This construction allows for smooth installation on various surfaces and integration of equipment inside or outside without drilling additional holes.
