Where can I find a power plant map?

Access the map here. Synapse has developed a free-to-use interactive map of power plants in the United States using data from the U.S. Environmental Protection Agency. This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the country.

Where is SunPower located?

It is a photovoltaic power station with an installed capacity of 579MW. The plant is located in Rosamond, California. It has been fully constructed since 2013 and is currently operational by the SunPower developer. The annual output of this plant comes around 1664 GWh through the 1.7 million installed solar panels.

Where is solar star located?

Solar Star was one of the biggest solar farms in the US and one of the largest in the world. It was formerly known as Antelope Valley solar projects located near Rosamond, California. This solar PV (photovoltaic) power facility has a capacity of 586 MW. It is known as the largest source of solar power in the US.

Where is the largest solar power plant in the US?

It was formerly known as Antelope Valley solar projects located near Rosamond, California. This solar PV (photovoltaic) power facility has a capacity of 586 MW. It is known as the largest source of solar power in the US. Built with an estimated cost of GBP 1.5bn (USD 2 Billion), it is known as the world's largest solar power station.

View the map of solar panel locations near you: solar farms, solar communities, solar parking lots, solar schools, solar roofs on buildings.

Several solar farms like Copper Mountain Solar Facility, Solar Star and Desert Sunlight Solar Farm are few of the biggest solar farms in the US. These farms are reducing reliance on fossil fuels ensuring ...

Interactive U.S. Solar Farms & Solar Parks Map showing plant boundaries, owners, nameplate capacity (MW), and power output. Based on EIA-860/860M/923. Filter by utility-scale photovoltaic and CSP ...

Interactive map of solar farms in the US. View the largest projects, track new developments, and explore capacity data across all states.
