During commissioning, President Maamau drank the first glass of "sky water" - a symbolic moment showcasing climate adaptation through technology. The project's reduced hospital water costs by ...

Specializing in island microgrid solutions since 2010, we've deployed 23 solar-storage projects across the Pacific. Our modular systems withstand harsh marine environments while maintaining 94.7% ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

To tackle remote or temporary needs, our solar trailer and container step in. They deploy solar setups fast, delivering green energy production, storage, and distribution wherever it's needed.

Island nations like Kiribati face unique energy challenges due to their remote locations and reliance on imported fossil fuels. Energy storage battery containers offer a scalable, renewable-driven solution to ...

Nestled in the Pacific Ocean, Kiribati faces unique challenges in energy accessibility and climate resilience. With rising sea levels threatening its 33 coral atolls, the nation urgently needs renewable ...

Looking to address challenges at the local level, the roadmap recommends solar desalination in South Tarawa; a combination of wind power, PV and battery storage for Kiritimati Island; and renewable ...

On September 6, 2022, Sino Soar Hybrid (Beijing) Technology Co., Ltd. received the bid award notification from the Kiribati Public Utilities Authority (PUB) and successfully won the bid for the ...
