As the world pivots towards sustainable energy solutions, the demand for efficient and reliable energy storage has never been greater. At the forefront of this revolution is our new battery manufacturing ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in ...

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November) in Targale, a village in Latvia's north ...

From residential battery walls to 100MW grid-scale installations, Latvian power storage manufacturers deliver solutions that balance innovation with practicality.

Designed by data center experts for data center users, the Vertiv HPL battery cabinet brings you cutting edge lithium-ion battery technology to provide compelling savings on total cost of ownership, with ...

GLASHAUS POWER - Latvia's push toward renewable energy integration and grid stability has made energy storage batteries a critical component of its infrastructure.

DRAKOULIS SOLAR - As of 2023, the average price for lithium-ion battery systems in Latvia ranges between EUR400-EUR650 per kWh, depending on capacity and application.

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and continuing with larger ...
