The company occupies an area of 24 acres and has a full set of production lines for anti-seismic support and hanger accessories, photovoltaic solar brackets, and more than 30 assembly lines of pressing ...

In order to achieve the effective use of resources and the maximum conversion rate of photovoltaic energy, this project designs a fixed adjustable photovoltaic bracket ...

Factory Direct Earthquake-Resistant Photovoltaic Bracket Accessories C-Shaped Steel Spiral Ground Anchors Hot-Dip Brackets

Spiral ground piles are commonly used in construction and outdoor facility installation. Its main uses are:
-Photovoltaic power station construction: used to fix solar photovoltaic panel brackets, quickly and ...

We are a physical factory specializing in the production of photovoltaic brackets, earthquake-resistant brackets, cable brackets, and punched C-shaped steel....

Photovoltaic brackets must be used for long-term use in special natural environments. It has strong physical properties such as air pressure resistance, snow pressure resistance, seismic ...

With global seismic activity increasing by 18% since 2020 according to the 2024 Global Seismic Report, earthquake-resistant brackets have become critical for solar projects in vulnerable ...

The company's current main products are earthquake-resistant brackets and accessories, Aluminum mold parts, special shaped parts and other one-stop procurement.
