Which solar generator is the fastest?

Rockpals 300W Power Station and 100W Solar Panel (Update: Currently unavailable): This solar generator performed just fine in our tests. It was the fastest charging of the rest in its smaller size category (though much slower than our favorite, Bluetti's EB3A).

How long does a solar generator last?

The best solar generators offer capacities of several hundred and sometimes several thousand watt-hours. That doesn't mean, however, that it will provide power for several hundred or several thousand hours. Any generator will ultimately last a different amount of time, depending on what's plugged into it.

What is the best solar power generator for camping?

Say you need a solar power generator for a few days of camping, over the course of which you're hoping to power a few small devices, a string of lights, and maybe even a small electric cooler--the Anker Solix C800 Plus is the perfect little unit. About the size of a shoebox and just 24 pounds, it's as portable and compact as can be.
