Since its launch in 2019, the BRILHO programme, funded by the governments of the United Kingdom (FCDO) and Sweden (Sida) and implemented by SNV, has reached a historic ...

BRILHO is a seven-year programme, 2019 - 2026, that will catalyse Mozambique's off-grid energy market in order to provide clean and affordable energy solutions to the country's off-grid ...

According to a press release, during the meeting, members of the public and private sectors will discuss and present projects dealing with various off-grid technologies, including mini ...

About 70% of Mozambique's population, more than 21 million people, still lives without access to electricity in their homes. Ignite is on a journey to connect hundreds of thousands of households to ...

To better understand how electricity access develops in the context of heterogeneity, we examine five urban neighbourhood types in Mozambique's Greater Maputo region, where heterogeneous ...

BRILHO was designed to overcome key market barriers to accelerate the transition to sustainable energy access. Since 2019, BRILHO set out to catalyse Mozambique's off-grid energy marketto ...

In a world thirsty for sustainable solutions, the Maputo Hydropower Storage initiative isn't just another dam project--it's a masterclass in marrying ancient water wisdom with 21st-century tech.

All three sectors reviewed - off-grid solar, mini-grids and improved cookstoves / clean cooking fuels - have the potential for significant market growth. Business models will need to be tailored to the ...
