McCoy Solar Energy Project Hybrid is a battery storage project located in Riverside, California. It has a total capacity of 230 MW. It was built in July 2021 and is operated by McCoy Solar, LLC.

The McCoy Solar Energy Project is a 250 megawatt (MWAC) photovoltaic power plant near the city of Blythe in Riverside County, California. It occupies about 2,300 acres (930 ha) of mostly public land in the Mojave Desert. The construction uses CdTe thin film panels from First Solar, and the output is being sold to Southern California Edison under a power purchase agreement. The project is located adjacent to the 235 MW Blythe Solar Energy Center, together forming a larger 4...
