These materials precipitate out of waste water with low pH and increase turbidity to the discharge. This filtration system accepts batch dumps from etching tools, and then reduces the pH to facilitate filtration.

Our mobile water treatment systems are deployed via stand-alone units or modular units in combination to form complete systems with state-of-the-art purification technologies.

Our energy storage cabinet systems provide efficient solutions for commercial and industrial (C& I) applications, including battery storage, outdoor cabinets and solar systems, ensuring reliable ...

Our business covers industrial manufacturing and energy storage solutions and provides comprehensive services from system design to installation and commissioning of containerized solar power systems.

This supplier certifies and commits that any products it lists on Alibaba for the purpose of being sold to Alibaba users in the European Union (EU) comply with the applicable rules of EU law.

Mobile wastewater treatment plants are a flexible way to treat wastewater in an efficient and compact way. At the same time, the effluent can be reused for irrigation purposes in a sustainable way.

Mobile wastewater treatment plants are a flexible way to treat wastewater in an efficient and compact way. At the same time, the effluent can be reused for irrigation purposes in a sustainable ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...
