Nuwakot Solar Power Station is located at Nuwakot District of Nepal. It is the largest solar power plant of Nepal. The plant is owned by Nepal Electricity Authority (NEA). The solar panels are installed in six locations within the premises of Devighat Hydropower Station which is also owned by the NEA. Energy generated by the project is connected to the 66 kV sub-station of Devighat Hydropower Station. The solar station generates energy only during the daytime.

Nepal's energy future lies not in hydropower alone, but in a combination of hydro, solar and storage. The country receives an average solar radiation of 4.5 to 5.5 kWh/m²/day -...

The relatively small size of Nepal's largest operational solar power plant highlights the nascent stage of its utility-scale solar development. The 25-MW facility is located in Nuwakot and ...

It is the largest solar power plant of Nepal. The plant is owned by Nepal Electricity Authority (NEA). The solar panels are installed in six locations within the premises of Devighat ...

As of 4 March 2025, Nepal's total installed electricity capacity is 3421.956 megawatts (MW). This includes 3255.806 MW from hydropower, 106.74 MW from solar, 53.41 MW from thermal, and 6 MW ...

The Nuwakot Solar Power Station, Nepal's largest solar power plant, represents a significant step toward sustainable energy development in the country. Owned by the Nepal ...

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said Gham Power.

The Barju Solar PV Project, now officially Nepal's largest solar power plant, has been successfully connected to the national grid. This launch marks a significant milestone in the country's ...
