What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What materials are used for outdoor enclosures & cabinets?

Explore Waterproof & Weatherproof NEMA-Rated Outdoor Enclosures and Cabinets with AZE! Durable Materials: Choose from galvanized steel, stainless steel, or aluminum for superior corrosion resistance and longevity.

How do I choose the best NEMA rated cabinet?

Cabinets with a 3, 3R, 3S, 3X, 3RX, 3SX, 4, 4X NEMA standard are all properly made to withstand the outdoor elements to varying degrees. The key is to select the enclosure rating that best meets your environmental needs, and then find an appropriate enclosure with that rating.

These cabinets are constructed using high-quality materials and fortified with secure locking mechanisms, tamper-evident seals, and intrusion detection systems to deter unauthorized entry.

These cabinets are designed for both permanent and temporary wireless applications including COW (Cell-on-Wheels) and COLT (Cell-on- Light Truck) Installations.

It is designed for a variety of applications and can be tailored to fit your specific needs. This cost effective solution has a unique cube design that give flexibility to easily have various heights of cabinets.
